

1. Search for 2blog in the search bar in the top right hand corner.

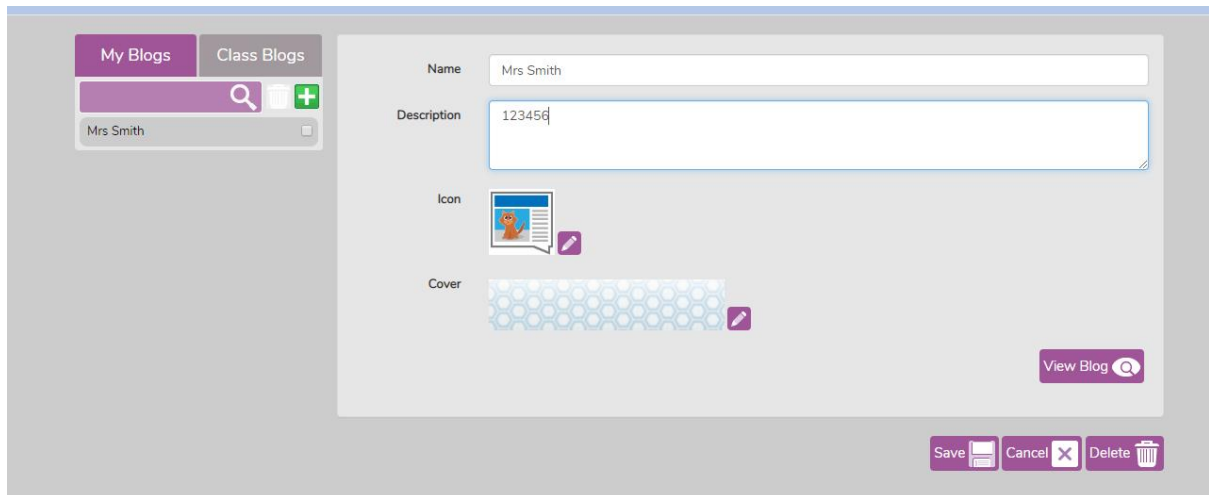

2. Open 2blog. There is a video and a user guide if you are not sure.

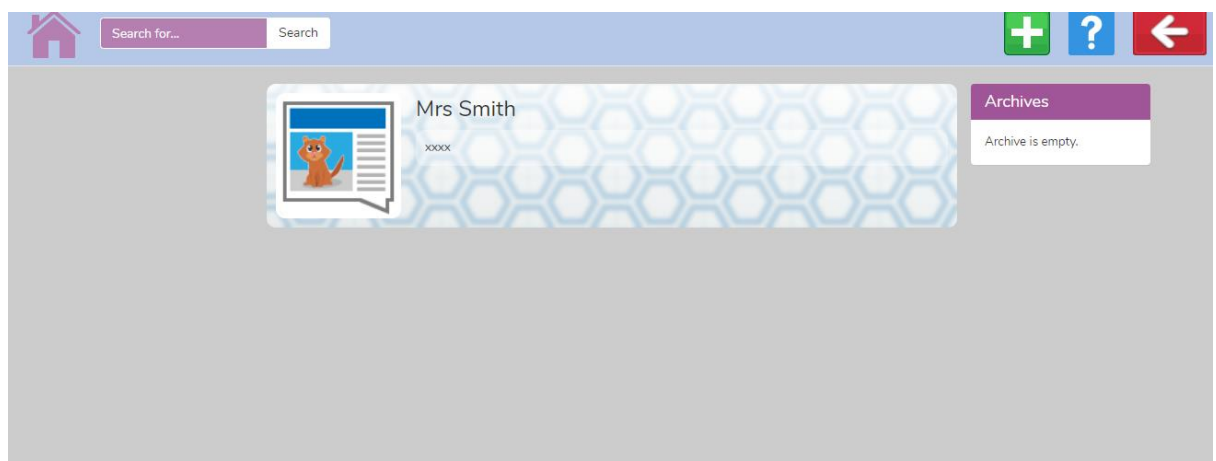

3. Click on My Blogs and then the green plus sign.

- You will then be able to name your Blog, add a description and decide what you want it to look like.

- Once you have completed this, press the save button. There will then be an option to 'view blog'.

- Click on the green plus in the top right-hand corner. A blog post should appear, and you can now start your blog. Enjoy!
