In March, we decided to host a month long celebration of science. The celebration would tie into British Science Week, but also launch our newly built and stocked primary science lab - Earthshot 1.

We are unbelievably lucky to have such an amazing space to teach science and inspire children about the future of STEM.

Throughout the month of March, we held workshops, completed the CREST challenges, counted plastic, visited other schools and much more! Here is a round up of our highlights!

Every child, from Reception to Year 6 completed 8 challenges as part of their CREST Award.

CREST AWARDS

Making toothpaste

Crafty rafts

TRINITY
SIXTH FORM ACADEMY

Hunting for microhabitats

We look forward to handing out certificates and badges this term!

WORKSHOPS

We owe a huge 'Thank You!' to everyone who came in to run a workshop. From our amazing parents, who volunteered to show off their amazing careers in STEM, to the fab TSFA students and Ellen from the Environment Agency!

LIVE LESSONS

A DAY IN THE LIFE OF A FARM VET

THE BIG PLASTIC COUNT 11-17 MARCH

Nearly 100 billion pieces of plastic packaging are thrown away by UK households every year, and just 12% recycled in the UK. It's time the government got serious about tackling the plastic crisis and you and your pupils can help! The Big Plastic Count is the UK's biggest household plastic waste investigation.

Dylan and Harvey went one step further and did a litter pick around their street!

YEAR 4 - INTO THE WILD

Year 4 visited TAA to learn about different animals. They got very close!

To round up our month-long celebrations for our Primary Lab Launch, we invited parents and carers into school to take part in a variety of workshops and experiments linked to the CREST Awards challenges that we have been working on. We hope you had a great time!

THANK YOU!
